

221 & 223

Fully Automatic Case Erectors

The Endoline 200 Series has become one of the most successful case erector designs in over 20 years of production. Key to its success are a number of unique features that combine to make it extremely efficient, reliable and versatile while handling a wide variety of case sizes and styles.

Features of the 220 Series include:

Dual Opposing Vacuum Case Opening

This unique design feature ensures that each case is opened positively from both sides. It ensures the efficient and reliable opening of cases, and overcomes problems that can be associated with stiff board and glue migration from the manufacturer's joint.

Compact

Width:
1810mm
Length:
1750mm

With a surprisingly compact footprint these machines will fit in to areas with restricted floor space or areas not normally suited to the installation of large or bulky machinery.

Easy to Use

The 220 series is designed with clear access, simple controls and quick to adjust to size changes. The machines are operator friendly and allow for quick and easy size change, cleaning and maintenance to ensure minimal machine down time.

Low Cost of Ownership

The Endoline 220 Series of Case Erectors is designed to give you the best possible value for your investment through maximum productivity with minimal stoppage time for problem-solving or case size changes.

Clear Access

Simple mechanical operation and clear access for easy size change, cleaning and maintenance.

Robust Construction

High quality components, housed in a robust, computer designed chassis allow for minimal servicing. Designed for the rigours of typical end-of-line packaging environments.

system range

221 & 223

Fully Automatic Case Erectors

Options include:

- Message display unit
- Low hopper sensing
- Low tape and no tape sensing
- Visual/audible failure alarm
- Low glue sensing (223)
- High speed

221 Shown

Case Dimensions (mm).

		Length	Width	Height (Open)
221/223	Minimum	200	150	175
	Maximum	500	400	600

Note: The 221 case erector seals cases with self-adhesive tape.

Speed

Standard infeed up to 16 cases per minute

The 223 case erector seals cases with hot melt glue.

Optional up to 18 cases per minute

Electrical

Type 221 Three phase:
380 - 415V, 50Hz, 0.5kW

Type 223 Three phase:
380 - 415V, 50Hz, 4.0kW

Machine Finish

Mild steel, powder coated white
(RAL 9010) or stainless steel

Pneumatics

80psi (5.5bar)

Tape Size

Standard: up to 50mm wide
Optional: up to 75mm wide
