

The Endoline 500 series of tray erectors is designed to be flexible enough to produce a wide range of tray sizes and styles at up to 25 trays per minute. They are operator friendly machines that are easy to maintain and extremely simple to operate and adjust.

Features of the 500 Series include:

Easy to Operate

The 500 series machines have simple mechanical operation and clear access for easy size change, cleaning and maintenance. They have full length interlocked doors for easy access.

Quick Size Change

The tray erectors take just minutes to adjust to size changes, and the simple operator controls mean that down time is kept to a minimum.

Robust Construction

High quality components housed in a robust chassis ensure minimal servicing and enable 24 hour operation. All our case tapers are designed for the rigours of typical end-of-line packaging environments.

Large Capacity

These machines can hold 200 'B' flute blanks which can be replenished during operation, therefore keeping the machine running smoothly.

Extended Warranty

TWO YEAR fully comprehensive warranty for peace of mind and reduced cost of ownership.

Safe

These machines fully conform to the latest EC safety regulations and are CE marked.

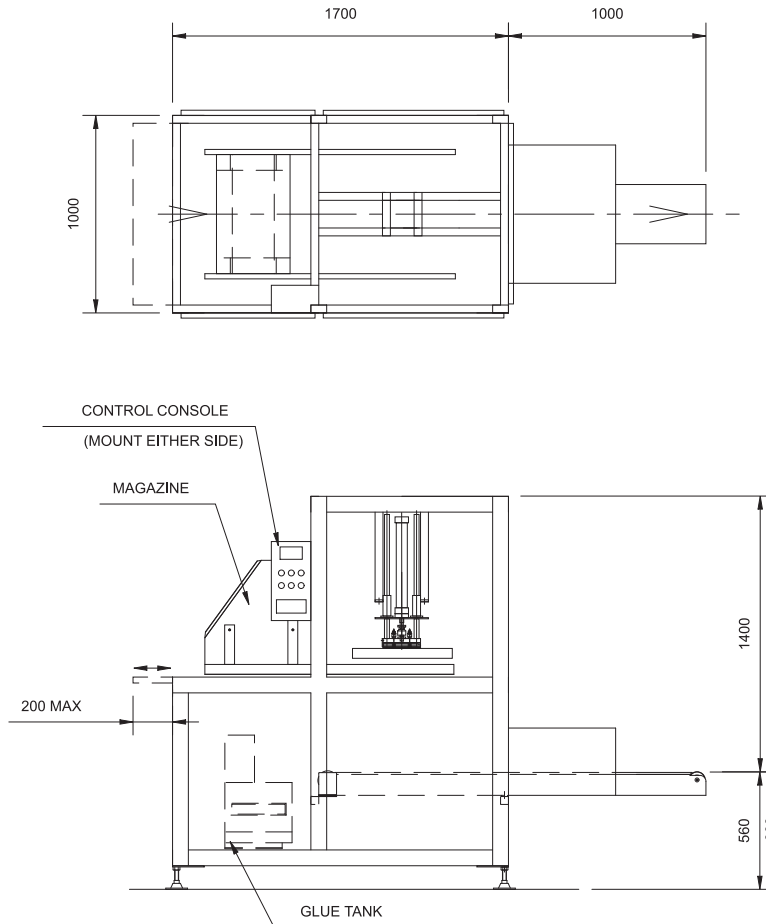

500 Series Tray Erectors

Options include:

- Low board magazine sensing
- Make on demand sensing
- Visual/audible failure alarm

501 Shown

Tray Dimensions (mm)

	Length	Width	Height (Open)
Type 501	200-470	200-550	40-135
Type 502	200-800	200-920	40-150

Blank Size (mm)

	Minimum	Maximum
Type 501	250 x 280	520 x 600
Type 502	280 x 470	1000 x 1000

Electrical Supply

Three phase: 415V, 50Hz, 3kW

Pneumatics

80psi (5.5bar)

Machine Finish

Mild steel, powder coated white (RAL9010) or stainless steel
