AIO PT – STAINLESS SEGMENTABLE DEDUSTER WITH METAL CHECK

Sophisticated engineering leads to unreach flexibility, and efficient performance. Our customers's process demand solutions beyond the tablet press. Therefore Pharma Flex offers peripheral devices as integrated solutions, which provides great customer benefits. As always, this new generation of vertical dedusters polymer or stainless steel has been developed to achieve the highest possible flexibility, in conjunction with superior figures for output and quality of dedusting.

Metal check and Checkmaster IPC tablet control tester are available. That new concept allow to increase performance of your Fette Compacting tableting machine, directly monitoring and controlling manufacturing without operator supervision need. This will warranty a 100% control of your manufacturing. Tester can be installed without any cable on the unit with a Plug-In concept.

+ AIO PT – stainless steel segmentable spiral

+ AIO PT – combined with tablets tester

AIO PFC – HI-TEC POLYMER SEGMENTABLE DEDUSTER WITH METAL CHECK

+ AIO PFC – Hi-Tec polymer segmentable spiral

BENEFIT

- + Excellent dedusting – deburring performance – air pulsing & powder extraction technology
- + Compactness of the unit – One unique system including deduster, metal check, tablet tester
- + Noise – very low noise emission < 65 Dba
- + Vibration effect cancellation - no vibration transmitted to accessories
- + Emptying – full tablet emptying & no tablet trapped in the system due to sophisticated design
- + No cable & pipe on the floor – One central connectivity «Plug-in» including all the utilities (vacuum line, communication signals, power supply, compressed air)
- + Dust tight – easy Flex Connect connectivity
- + Fast product change-over – exchangeable deduster module

AIO – Plug-In Checkmaster IPC tablets tester
