## Glatt Drum Coating Systems

**NEW**  
MINI-COATER-SYSTEM  
FOR RESEARCH AND DEVELOPMENT

### GMPC I Mini-Coater

CLINICAL SAMPLES  
FEASIBILITY TESTS  
FILM COATING

©GLATT GMBH BINZEN - GMPC I MINI COATER - 7221\_533 - SEPTEMBER 2009 - 1,500 EN - AJMÜLLER - NEUBERGER.DESIGN

Making dreams come true!

Superior coating  
on a very small scale.

**For professionals: The new GMPC I Mini-Coater.  
First-class coating for small batch sizes.  
The perfect laboratory unit for research  
and development.**

Maximum effect – minimal effort! In research and development, every gram of product results in huge costs. Our Mini-Coater lets you produce batches as small as 500 g extremely efficiently.

Feasibility tests – quick and easy! With its three exchangeable drums and special nozzle arrangement, the Mini-Coater is ready to start work immediately.

Optional qualification package for clinical samples. All relevant materials are FDA compliant. The inlet air is HEPA filtered. The entire system is qualified. What more could you ask for?

High quality processing in the very best Glatt tradition. At an extremely attractive price.

**Glatt Mini-Coater nozzle – small and fine**  
ABC Technology® prevents deposits on the jet.  
Externally adjustable and positionable.

**Optimal results in minimal time.  
No time-consuming installation. Robust,  
reliable technology. The new GMPC I Mini-Coater  
eases your everyday work in the lab!**

Effortless handling – simply ingenious. And ingeniously simple. The complete housing can be dismantled and reassembled for drum changes or cleaning in a matter of seconds.

Wonderfully simple. And simply wonderful!

**3 exchangeable drums**  
1.6 liter drum as standard, 0.8 liters  
and 2.5 liters optionally available.
