Glatt WebView

Mobility without limits.

- Maintain an overview – wherever you happen to be! With Glatt WebView® you can be sure of access to important data – around the world!
- The only requirements: the browser-based WebView software from Glatt (installed on your GlattView® system PC with network or internet access) and a smartphone, tablet or PC.
- Glatt WebView – browser-based software for connecting to GlattView® control systems regardless of location.

- Visualisation of process data.
- Display of system status.
- Representation of trends.
- Alarm messages.
- Available for all GlattView® Eco and GlattView® Mega control systems as well as all Glatt MegaViews® with iFix visualisation.

Mobile Devices

Total control. And unlimited mobility.

- The complete GlattView® control system in your hand. You have everything under control in any situation – wherever you are around your equipment.
- Mobile operating station with large touch screen. Complete GlattView® control system integrated. All the functions of the GlattView® control system on a mobile unit.

- Integrates into the Glatt Multi-Panel concept. Switching over from stationary to mobile control panels and back is simple, logical and absolutely safe.
- Connection via WLAN.
- Also available in an Ex-version.
- Ideal for service and maintenance: Individual components can be controlled directly by a single person on site.
- Available for all GlattView® control systems.
- Can also be retrofit (on request).
