

The Sollas MiniFlex is a semi-automatic overwrapping machine. This new approach on film overwrapping provides a high quality wrap for small batches / series at a limited investment.

Features of the Sollas MiniFlex:

- NO CHANGE PARTS NEEDED!
- Patented universal folding system
- PLC control with soft touch display
- All adjustments on the folding unit are with numeric indicators
- Temperature, sealing time and film length adjustments via the soft touch display
- All machine settings can be stored in the PLC
- Optional film slitting on film roll

Type	MiniFlex
Size range L	60 - 320 mm
W	30 - 250 mm
H	24 - 96 mm
Output max.*	10 / minute
Film width	60 - 400 mm
Packing material	PP and coated paper (≥ 30 micron)
Film reel diameter max.	300 mm
Pneumatics	6 Bar
Electrics	230 V 50Hz
* depending on skills of machine operator and product properties
