- » Suitable for American cases, trays with/without lids, buckets, bags, cans, shrink-wrapped items, etc.
- » Pallets fed semi or fully automatically
- » Extendable via interlayer magazine
- » Servo drives ensure precise positioning
- » Any pallet pattern can be realised
- » Suckers or grippers allow trouble-free processing
- » Ideal addition to final packaging lines
- » Requires little floor space
- » Requires little maintenance

oli-pal  
operating principle

» Gripper system

» Sucker system

» Pallet magazine

» Interlayer magazine

## Compact palletisers

### oli-pal A, B, C, D

This installation is available in four variants:

- » **oli-pal A**  
Pallets are fed and removed manually
- » **oli-pal B**  
Pallets are fed and removed automatically
- » **oli-pal C**  
Pallet magazine holds up to 12 pallets
- » **oli-pal D**  
Extra magazine for interlayers

### General information

Can be applied in all industries. Compact, space-efficient design. Superior workmanship/material quality and refined operationability in all details:

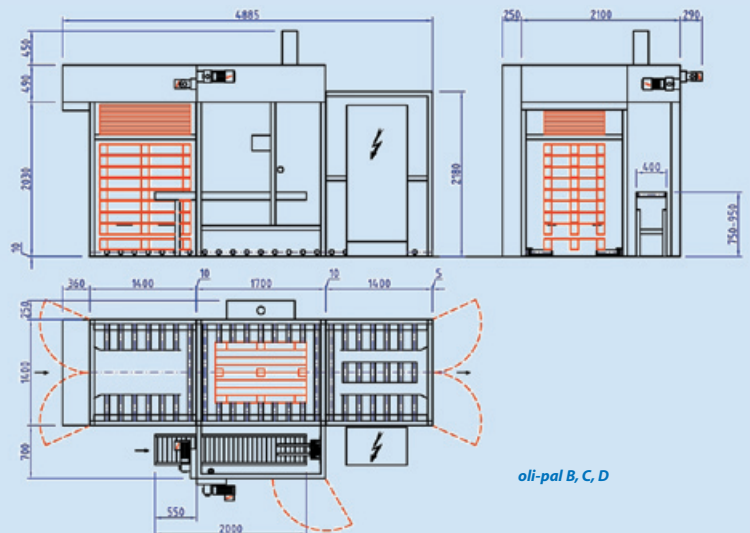

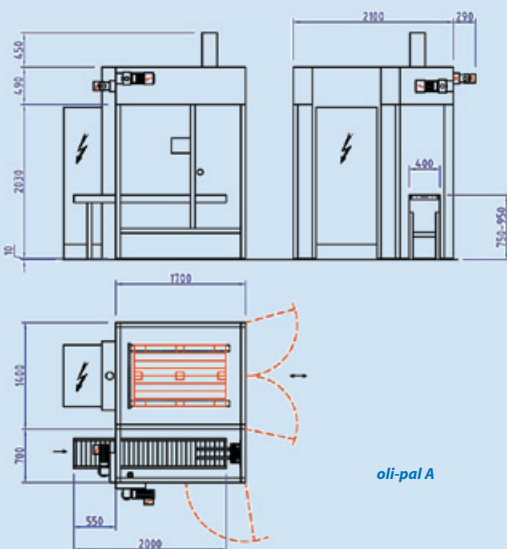

- Up to 25 different pallet patterns can be stored
- Suckers or grippers pick up the product
- Operator panel with multi-lingual text display or touchscreen panel
- Extensive format range, format is changed quickly
- Servo motors drive all relevant motion
- Stable, welded frame
- Practically maintenance free
- Requires minimum of floor space

### Technical information

Output: up to 12 movements/min, higher performance via multi pick-up capability  
 Case format range (L x W x H mm):  
 100 x 100 x 50 - 600 x 400 x 500  
 – or to customer preference  
 Type of pallet: any conventional pallet, any special dimension  
 Operating voltage/required power:  
 3 x 230/400 V/N/PE, 50/60 Hz, 2,2 - 3.5 kVA  
 Air pressure: approx. 6 bar  
 Floor layouts: any variant is feasible  
 Change over time:  
 extremely quick, approx. 2 - 10 min.

Note:  
 oli packaging machinery is customized in terms of output, colour, installed load, etc., to suit the specific customer application. All machinery can be designed inversely for every format.
